RE: Proposed Resolution to SNL/DOE Request for a Public Hearing
on the Kirtland Air Force Base Open Detonation Draft Permit

Dear Ms. Carlson:

This is to acknowledge receipt of your letter of September 8, 1994. Your suggestion of the change in verbiage in KAFB's draft Permit Condition II.B.I. is acceptable, hence the following changes have been effected in Module II, Permit Condition B.I., with the redundant word struck out; while the added words are highlighted; thus:

II.B.I The ~~manufacturer~~ **generator** of the ~~explosive waste~~ shall provide the Permittee Material Safety Data Sheets (MSDS) ~~or equivalent technical information~~ that contain all the chemical composition (and percentages) required by this permit. The Permittee shall review....

The above modification has been incorporated into the subject draft permit. NMED anticipates your letter stating that you are withdrawing your earlier request for a public hearing.

If you have further questions on this matter you may contact me or Cornelius Amindyas at (505) 827-4308.

Sincerely,

Barbara Hoditschek
