Dear Mr. Pullen

Attached is our notice to U.S. EPA Region 6 of a Class I modification to the Kirtland AFB Resource Conservation and Recovery Act (RCRA) Hazardous and Solid Waste Act (HSWA) Permit. A Class I modification allows the base to add or move sites in the permit without public hearing.

In early August 1994, we proposed creating Appendix V, to which we would add new sites as they are identified. The EPA verbally approved this request; however, in subsequent conversations, they expressed concerns about ensuring deliverable dates for RCRA Facility Investigation (RFI) reports were the same for new sites, without creating impossible milestones. In a 31 August 1994 letter, we counterproposed creating Appendix V, adding only those new sites identified in FY94 with a deliverable date of 31 December 1995. We also proposed creating Appendix VI for any new sites we identify in FY95, with a deliverable date of 31 December 1996.

Please contact me, 846-2773/0053, if you have any questions.

Sincerely

CHRISTOPHER B. DeWITT, R.P.G.  
Acting Director  
Environmental Management Division

Dear Mr. Honker

This letter constitutes a Notice of Class I Modification to the Kirtland Air Force Base HWSA RCRA Permit Part B.

In our 9 August 1994 letter to Ms. Morlock, we proposed creating a new Appendix V, to which we would add new sites as they are identified. On 22 August, Ms. Morlock gave the Restoration Branch verbal permission to create Appendix V and begin adding new sites. In his 19 September 1994 letter, Mr. Neleigh formally approved the creation of Appendix V, with a 31 December 1995 due date, and Appendix VI, with a 31 December 1996 due date, for new sites identified as SWMUs during FY95.

Please contact me, (505) 846-2773/0053, if you have any questions.

Sincerely

  
CHRISTOPHER B. DeWITT, R.P.G.
