Dear Ms. Morlock

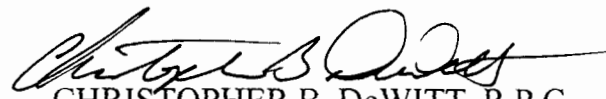

In your 8 November 1994 letter, the EPA directed us to add DP-69, Ammo Storage Area Disposal Site, as a SWMU in Appendix VI of our RCRA HSWA permit. In that same letter, we were directed to submit a RFI work plan detailing the investigation of this new SWMU.

As you know, Foster Wheeler Environmental (formerly Enserch Environmental) is writing a base-wide work plan that will be used for all future restoration work on Kirtland AFB. We are presently reviewing the draft work plan and will forward it to your office no later than 31 December 1994.

The RFI for DP-69 will adhere to the base-wide work plan. Also, when we submit the field sampling plan for Appendix VI sites, the sampling details for DP-69 will be included.

Please contact me at (505) 846-2773/0053 if you have any questions.

Sincerely

  
CHRISTOPHER B. DeWITT, R.P.G.  
Chief, Restoration Branch  
Environmental Management Division
