Walter Darr
377 ABW-EMC
2000 Wyoming, S.E.
Kirtland Air Force Base, NM 87117-5659

Dear Mr. Darr:

The Hazardous and Radioactive Materials Bureau (HRMB) has in the past requested information concerning historical generation, storage, and disposal records for all hazardous waste generated since 1980 at the Kirtland Underground Munitions Storage Complex. HRMB understands that a records search effort has been made by Kirtland Air Force Base staff. However, HRMB hereby formally requests that all information regarding this waste be provided in whatever written format is available no later than December 31, 1994.

Specifically, HRMB requests that such information include the types of waste generated, including the applicable EPA hazardous waste codes, the quantities of each type generated, and the methods and dates of disposal, including the locations of disposal. An explanation of the rationale as to why any records may not be available must be included. Estimates based on best available information should be provided where specific records are not found.

Again, HRMB is requesting that the above information be provided by December 31, 1994. If you have any questions, please contact me at (505) 827-4308.

Sincerely,

Coby Muckelroy
RCRA Inspection/Enforcement Program Manager
Hazardous and Radioactive Materials Bureau

xc: Major Scott Streifert
Benito Garcia, Chief, HRMB
John Tymkowych, RCRA Inspection/Enforcement Supervisor
