RE: Notification of Hazardous Waste Shipment
(Manifest K4047, dated 10/22/94)

Dear Mr. Muckelroy

This is to inform you of the current status of our mixed waste that was manifested for disposal.

Kirtland Air Force Base (KAFB) shipped mixed waste on October 22, 1994. This waste is being relocated to Envirocare on 6 December, 1994. This waste will sit in storage for approximately three (3) days to determine the treatability to be performed.

This action will exceed the 45 day time frame required by 40 CFR for the return of the signed manifest back to the generator. When KAFB receives the signed manifest, we will provide your office with a copy as per telephone conversation on 2 December 1994, between John Tymkowych and myself.

Please contact me at (505) 846-5037/5027 if I can furnish additional information.

Respectfully,

Walter S. Darr III
WALTER S. DARR III
Chief, Compliance
Environmental Management
