Dear Ms. Morlock

This letter is to notify you of a potential SWMU, an underground detention tank located approximately 25 feet from the northwest corner of Building 20389 (Attachment 1). The Department of Energy (DOE) located the tank during an environmental baseline survey (EBS) conducted in preparation for the outgrant of the building to the DOE by the Air Force. As part of the EBS, the DOE tested the tank's contents for metals, VOCs and SVOCs; none were detected with the exception of 2-butanone.

Given the age of the tank (building records indicate it may be 40<sup>+</sup> years old), that building records do not indicate the exact previous uses of the tank, and the presence of the 2-butanone, we will submit a SWMU Assessment Report to your office within 90 days of the date of this letter (6 March 1995).

Sincerely

  
CHRISTOPHER B. DeWITT, R.P.G.  
Chief, Restoration Branch  
Environmental Management Division
