RETURN RECEIPT REQUESTED**

December 28, 1994

Mr. Walter Darr, Chief  
Compliance Environmental Management Division  
1606 Air Base Wing  
Kirtland Air Force Base  
Albuquerque, New Mexico, 87117

**RE: Technical Adequacy of Open Burning Treatment Unit Permit  
Application  
EPA Identification Number - NM9570024423**

Dear Mr. Darr,

Kirtland Air Force Base submitted a part B Open Burning permit application for the demolition of waste munitions that include pyrotechnics, explosives and propellants in September 1994. The permit application has been reviewed for technical adequacy and determined to meet the requirements for RCRA permits identified in New Mexico's Hazardous Waste Management Regulations.

The draft permit will be prepared beginning December 1994. Should any further questions arise, the New Mexico Environment Department, Hazardous and Radioactive Materials Bureau (HRMB) may request additional information, when necessary to clarify, modify, or supplement previously submitted material. Requests for such additional information will not render an application incomplete.

If you have any questions please contact Mr. Cornelius Amindyas of my staff at (505) 827-4308.

Sincerely,

Barbara Hoditschek  
Program Manager  
RCRA Permit Section
