Kirtland Air Force Base, NM 87117-5659

Dear Mr. Darr:

The Hazardous and Radioactive Materials Bureau (HRMB) has received your December 22, 1994 letter requesting an additional 21 days to respond to the information concerning historical generation, storage, and disposal records for hazardous waste generated at the Kirtland Underground Munitions Storage Complex. This information was requested in my November 29, 1994 letter addressed to you. Based on the information provided in your letter, HRMB grants an extension until January 23, 1995 for submittal of the requested information.

However, an additional extension will not be granted, and HRMB expects that whatever information is available by January 23, 1995 will be provided. At that time, HRMB will assess whether any additional information is required. If you have any questions concerning this matter, please contact me at (505) 827-4308.

Sincerely,

Coby Muckelroy
RCRA Inspection/Enforcement Program Manager
Hazardous and Radioactive Materials Bureau
