Dear Ms. Morlock

The DOE's Albuquerque Operations Office has advised us that they have permanently sealed the floor drains leading to the underground detention tank in Building 20389 (Atch 1). This was recommended in your 6 April 1995 letter, in which you determined the underground detention tank at Building 20389 is *not* a SWMU.

This closes out all actions on this facility. Please contact me if you have any questions.

Sincerely

CHRISTOPHER B. DeWITT, R.P.G  
Chief, Restoration Branch  
Environmental Management Division

Dear Mr. DeWitt:

In accordance with your memo dated April 11, 1995, the two floor drains located in Building 20389 which connect to the underground detention tank have been permanently sealed with concrete as of today, June 16, 1995.

If you have any questions regarding this matter, please call me at 845-6377.

Sincerely,
