Dear Ms. Morlock

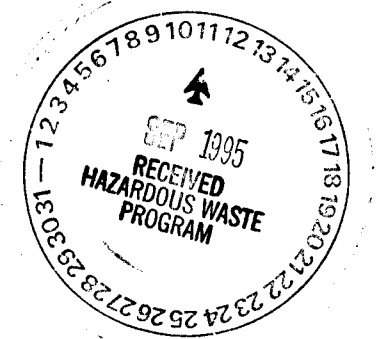

The Appendix III RFI reports for wasteline and non-wasteline sites are due to your office by 8 October 1995. Due to the size of these plans, and the extensive corrections needed to bring them more in line with Notice of Deficiency comments from previous documents, request you grant a two-week extension of the due date.

If you are agreeable to this, we will submit the two reports no later than 23 October 1995.

Sincerely

CHRISTOPHER B. DEWITT, R.P.G.
Chief, Restoration Branch
Environmental Management Division
