**RE: Technical Review of Assessment Report for the Former Skeet Range and the Former Pistol Range**

Dear Mr. DeWitt:

The Environmental Protection Agency (EPA) has completed a technical review of your July 6, 1995, Solid Waste Management Unit (SWMU) Assessment Report for the Former Skeet Range and the Former Pistol Range located south of the main east-west runway on Kirtland Air Force Base's west side. The EPA agrees with your determination that the Former Pistol Range is a SWMU and should be added to Kirtland's HSWA/RCRA Permit, and that the Former Skeet Range is not a SWMU.

Kirtland Air Force Base shall initiate a Class I permit modification within 90 days of receipt of this letter to include the Former Pistol Range in their Permit. Please submit a site-specific sampling plan no later than December 31, 1996. A RCRA Facility Investigation (RFI) Report detailing the results of the above investigation shall be submitted to the EPA by December 31, 1997.

If you have any questions or need additional information, please contact Mr. Allen T. Chang of my staff at (214) 665-7541.

Sincerely yours,

*David W. Neleigh*
