Dear Mr. DeWitt:

The Environmental Protection Agency (EPA) has reviewed your September 5, 1995, request for a Class 2 permit modification to re-group sites according to relative risk and priority. EPA concurs with this action, since the investigative schedule for the majority of the sites will be accelerated.

Please proceed with the public notice and permit modification procedures. Written public comments must be submitted to EPA and the New Mexico Environment Department no later than 15 days after the public meeting.

If you have any questions or need additional information, please contact Nancy Morlock of my staff at (214) 665-6650.

Sincerely yours,

*David W. Neleigh*
