RE: Extension for Mixed Waste 90 Day Accumulation Point

Dear Mr. Muckelroy

Environmental Management Compliance is requesting an extension for our 90 day accumulation point located at the Kirtland Underground Munitions Storage Facility, for mixed waste. This extension is required due to contractual problems with Envirocare, our previous contractor for this waste stream. We presently have 2-55 gallon containers full and labeled, awaiting pick-up (Atch 1).

This waste will be moved as soon as this issue is cleared up and our shipment can be received. If you have any questions, please contact Marsha Carra at (505) 846-7847 or myself at (505) 846-5037. We appreciate your help and cooperation.

Respectfully

WALTER S. DARR III
Chief of Compliance
