Albuquerque, New Mexico, 87117-5659

RE: Request for Extension of Ground Water Sampling Period

Dear Mr. Sillerud:

We have received your letter requesting an extension by One month, for the fourth quarterly round of Post Closure Ground Water (GW) sampling at the Sewage Lagoons and Golf Course Main Pond (SL & GCMP), Kirtland Air Force Base.

We at the New Mexico Environment Department, Hazardous and Radioactive Materials Bureau (HRMB) understand from your letter of February 21, 1996 that contract services for the work is currently being negotiated, which requires additional time for completion of the subject project.

Based on the above explanation and your plans to complete the ground water sampling during the first week of April, 1996, HRMB hereby grants you the requested extension from your date of receipt of this letter to April 19, 1996. We must therefore receive the fourth quarterly GW monitoring report from you **not later than April 19, 1996.**

If you have any questions regarding this matter you may contact Cornelius Amindyas at (505) 827-1561.

Sincerely,

Barbara Hoditschek
