**RE: Class I Permit Modification for Kirtland Air Force Base,
EPA I.D. Number: NM9570024423-OD, And NM9570024423-OB**

Dear Mr. Darr:

The New Mexico Environment Department (NMED) Hazardous and Radioactive Materials Bureau (HRMB) received the U.S. Department of the Air Force, Kirtland Air Force Base's request for Class I Open burn and Open Detonation Permit Modifications. You indicated in your letter of March 22, 1996 that the changes you wished to effect were for the purpose of making the operational guides of both the Open Burn (OB) unit and the Open Detonation (OD) treatment unit consistent with one another.

The New Mexico Hazardous Waste Fee Regulations (20 NMAC 4.1) require the assessment of permit fees for permit modifications. Permit modifications classified as Class I (minor) by the Hazardous Waste Management Regulations may be accomplished with minimum file review and administrative support (20 NMAC 4.2, Section 206 § B.1.). The Class I Modification to amend the OB and OD Permits is subject to a fee of \$1,000.

Please indicate on the remittance the following information:
