 Kirtland AFB NM 87117-5659

24 JAN 1997

Mr. Benito Garcia, Chief  
 Hazardous & Radioactive Materials Bureau  
 New Mexico Environment Department  
 PO Box 26110  
 Santa Fe NM 87502

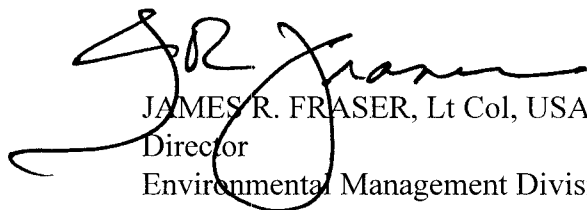

Dear Mr. Garcia

We are forwarding three copies of the report for the site investigation conducted at RW-75, South Tijeras Trench. Please forward one copy to Mr. Stephen Pullen of your office.

Site RW-75, a suspected radioactive burial area, is *not* listed on the Kirtland AFB RCRA Part B Permit. The site investigation was conducted to: 1) determine if radioactive releases to the environment had occurred; and 2) identify and characterize surface anomalies suspected of containing radioactive and RCRA-regulated contaminants. The investigation concluded there were no contaminants or buried radioactive sources in the area.

Please contact Mr. Christopher DeWitt, (505) 846-0053, or me, (505) 846-2751, if you have any questions.

Sincerely

  
 JAMES R. FRASER, Lt Col, USAF  
 Director  
 Environmental Management Division
