SUBJECT: Long-Term Groundwater Monitoring Plan Sampling Frequency

1. We are changing the sampling event interval for the Long-Term Groundwater Monitoring Plan (LTM) from quarterly to semi-annually. The first semi-annual sampling event will be conducted in Mar 98.
2. Quarterly sampling was initiated in May 96 for the collection of baseline data and completed in Sep 97. Baseline determinations will be summarized in the LTM annual report to be submitted to the New Mexico Environment Department in Mar 98. Semi-annual sampling will initiate collection of detection monitoring data for comparison to the baseline determinations.
3. If you have any questions, please call me at (505) 846-2751, or my point of contact, Mr. Christopher B. DeWitt at (505) 846-0053.
