**Re: Modification to KAFB Stage 2 Abatement Plan**

Dear Mr. Bittner:

Albuquerque Environmental Health Department concurs with New Mexico Environment Department (NMED) requirements for additional elements of Modified Stage 2 Abatement Plan Report for the Bulk Fuels Facility (ST-106), Kirtland Air Force Base, Bernalillo County, Albuquerque, as instructed by NMED Groundwater Quality Bureau in its July 29, 2008 letter.

Albuquerque Environmental Health Department expects KAFB to fulfill these requirements completely and in the timetable provided so that further deleterious impacts to Albuquerque's groundwater are prevented and public health and safety are protected.

If you have any questions, please contact me at 768-2610.

Sincerely,

A large, stylized handwritten signature in black ink, appearing to read "John W. Soladay".

John W. Soladay, Acting Director  
Environmental Health Department

cc: Martin J. Chávez, Mayor, City of Albuquerque  
Rey Garduno, City Councilor, District 6  
William C. Olson, NMED Ground Water Quality Bureau  
James Bearzi, NMED Hazardous Waste Bureau  
Baird Swanson, NMED District 1  
Janet Brooks, NMED Team Lead
