Baird

I had CH2 review your map for well location accuracy, and am forwarding their modified map.

I will be out of the office Friday and Monday and back in the office on Tuesday.

Thanks

Mark

Mark,

Please provide the attached PDF to Baird for the well locations. I notice that his location for KAFB-1065 is slightly off. I have used the 2006 aerial photo, which is probably most similar (if not the same) to the image used in Google Earth (his image base). I've included the VA Hospital production well and the former fuel offloading rack, which he showed on his figure.

Joe

Joe

Would you please verify the location of the monitor wells at ST-106 as Baird is requesting.

Thanks

Mark

Mark

Could you please verify that I have properly located current monitoring wells on the map? I really want to be able to integrate the historical info with current well locations. Thanks

Mark,

Please find attached the second set of aerial imagery (with base infrastructure overlay) for you to share with Baird. These are for 1973, 1982, and 1990. Please let me know if you have any trouble with these images.

Best Regards,

Joe
