Mr. Kieling

Kirtland AFB received a letter from NMED dated 15 Nov 10, approving the Accelerated Corrective Measures (ACM) Report for Solid Waste Management Unit WP-26, Sewage Lagoons and Golf Course Main Pond. The report documented the removal of contaminated sludge and soils from the surface of the abandoned sewage lagoons, location of site WP-26.

Based on approval of the ACM Report, we are requesting approval of "Corrective Action Complete" for the surface of the sewage lagoons. Kirtland AFB is in the process of programming a project to formally decommission the sewage lagoons and approval of our request will permit finalization of the project.

Kirtland AFB understands that continued corrective action of the subsurface soil vapor and groundwater contamination would still be required if our request is approved.
