Kirtland AFB, NM 87117-5270
(505) 853-3484

Sandia National Laboratories is a multi-program laboratory managed and operated by Sandia Corporation, a wholly owned subsidiary of Lockheed Martin Corporation, for the U.S. Department of Energy's National Administration under contract DE-AC04-94AL85000.

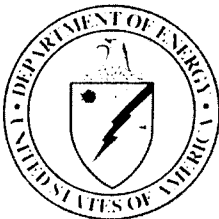

Mailing List Maintainer

You are on a mailing list to receive information about Sandia National Laboratories' environmental activities. If you would like your name removed from the list, please Contact Katrina Wagner at Sandia:

Email: kmwagne@sandia.gov
or
USPS: Sandia National Laboratories
Dept. 4142, MS 0730
P. O. Box 5800
Albuquerque, NM 87185-0730

We make every attempt to keep our list current and targeted only to those interested in our environmental activities.

Thank you for your help!

NOTICE
Sandia National Laboratories

**Notice of a Request for a Class 3 Permit Modification
to Module IV of Hazardous Waste Permit NM5890110518-1**

On behalf of the Department of Energy (DOE) and Sandia Corporation (Sandia), DOE hereby notifies you that DOE and Sandia are initiating a Class 3 modification for designation of one solid waste management unit (SWMU) as approved for no further action at Sandia National Laboratories/New Mexico (SNL/NM).

The SWMU under consideration is LTES Site 1, known as the Cable Debris Site. DOE and Sandia identified the SWMU in 2008, notified the New Mexico Environment Department (NMED), and completed corrective action under a plan approved by the NMED. In 2010, NMED determined that corrective action is complete at this site.

DOE and Sandia request that this SWMU be listed on Table A.2 "List of Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) not Currently Requiring Corrective Action" in Module IV of Hazardous Waste Permit NM5890110518-1. DOE and Sandia further request that no controls be required for this SWMU.

Comment Period. A 60-day public comment period associated with this permit modification request begins on March 19, 2012. Comments on this request will be accepted through May 18, 2012. Comments should be directed to both:

Mr. John Kieling, Acting Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Dr. E, Bldg 1
Santa Fe, NM 87505

Mr. David Rast
US Department of Energy
Sandia Site Office
PO Box 5400
Albuquerque, NM 87185

Public Meeting. The information about LTES Site 1 will be presented in poster format at the Department of Energy/ Department of Defense (DOE/DOD) Semi-Annual Public Meeting. The poster will be available for review during the entire meeting, and staff from SNL/NM will be available to answer questions. For further information, please contact David Rast, DOE, at (505) 845-5349.
