**RE: FINAL ACCELERATED CORRECTIVE MEASURES WORK PLAN:
BUILDING 57001 (OT-C572), MARCH 2012
KIRTLAND AIR FORCE BASE, EPA ID# NM9570024423
HWB-KAFB-12-016**

Dear Col. Miller and Mr. Pike:

The New Mexico Environment Department (NMED) has reviewed the document *Final: Accelerated Corrective Measures Work Plan, Zia Park (CS-571), March 2012*, received on July 26, 2012. In this document, Shaw Environmental and Infrastructure, Inc., contractor for the U. S. Air Force (Permittee), proposes excavating contaminated soils discovered as a result of soil sampling conducted under the previously submitted SWMU Assessment Report (HWB-KAFB-12-011). Contamination in soils will be determined by comparison to the compound-specific cleanup levels found in the Permittee's Permit Part 6, Section 6.2.3.

This work plan allows for up to 40 cubic yards of contaminated soil to be excavated. Additional soils exceeding cleanup levels will be left in place and documented in the accelerated corrective measures report.

NMED hereby approves the subject work plan.

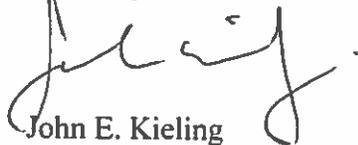

KAFB4188

Col. Miller and Mr. Pike
