Subject: RE: Request for 15 day extension

Thank you Mr. Kieling, we appreciated the Hazardous Waste Bureau's (HWB) quick response. Apologies for not addressing request to Ms. Roberts. I have made note for the formal request and subsequent documents related to this subject.

Dear Ms. Hunter and/or Mr. Huddleson, the Air Force has also been discussing Kirtland AFB's DP-1770 reporting requirements and wanted to also appeal to the Groundwater Bureau for an extension for the final written report submission. In order to align our submissions to both the HWB and GWB, we are also requesting of GWB to allow KAFB to submit the report by December 13, 2015 (please see Mr. Kieling's email below). We have addressed our formal extension request letter to both the HWB and to the GWB. Please note that the extension letter is currently being routed for approval/signature from our base commander so I am respectfully requesting a quick response on whether December 13th is not agreeable to GWB, to incorporate changes before the letter is signed. Also, the one-week notification letter, per the DP-1770, has been submitted up our chain for approval/signature from our base commander. We hope to get both of these signed letters to you soon.

Thanks to all of NMED for your help/cooperation. Once again, if there are any concerns regarding the email contents, please contact me.

Sincerely,

Victoria R. Branson, GS-12, AFCEC/CZO

Subject: RE: Request for 15 day extension

Ms. Branson,

I am responding on behalf of Kathryn Roberts, Director, Resource Protection Division.

NMED is in receipt of the e-notification (below), requesting a 15 day extension to submit a written report regarding the secondary containment leak at the Temporary Treatment System (TTS). The Air Force notified the NMED of the secondary containment leak on November 13, 2015 with a deadline for submittal of a written report on November 28, 2015. The 15-day extension to December 13, 2015 is hereby approved so that the written report may include key information (e.g., soil confirmation sample results, IDW characterization, etc.).

An official letter approval response will be issued upon receipt of the formal extension request.

Thank you,
John Kieling

Subject: Request for 15 day extension

Good afternoon Mr. Kieling,

This written e-notification is being sent as a request to NMED Hazardous Waste Bureau, in accordance with our permit, for a 15 day extension to submit a written report regarding our "Kirtland TTS Secondary Containment Leak". Our leak notification was originally reported to NMED on 11/13/2015 via email (and NMED GWB voicemail), from Jason Tarbert of CB&I. The Air Force is requesting the extension to try and incorporate key information which we are waiting for (ie: analysis results, etc). Please accept this email request for a 15 day extension in the interim while a formal extension request is staffed for official signature on our Air Force side. We will send that signed request over to you at earliest.

Please contact me with any questions, comments or concerns. Thank you a head of time for your cooperation/assistance.

Respectfully,

Victoria R. Branson
