Dear Colonel Froehlich and Mr. Pike:

The New Mexico Environment Department (NMED) has received the U.S. Air Force's (Permittee) request for an additional extension to submit the *Quarterly Pre-Remedy Monitoring and Site Investigation Report for October-December 2015 and 2015 Annual Report* from March 31, 2016 to April 29, 2016. The Permittee cites a need for additional time to complete data interpretation and discussion of all investigative groundwater and soil-vapor collected in 2015. The subject report serves as both the quarterly monitoring report and the annual report for data collected at the project site.

The extension request is hereby approved. The new submittal date for the subject report is April 29, 2016.

Col. Froehlich and Mr. Pike
