Subject: RE: Extension Request for Conditional Approval on CAR for Water/Condensate Release

Hello Scott,

NMED is in receipt of KAFB's request for an extension to the Conditional Approval of the Corrective Action Report for the Water/Condensate release requesting that samples be collected and analyzed for semi-volatile organic compounds (SVOCs). The justification for the extension request is additional time required for laboratory analysis and data validation.

NMED approves the extension request to June 9, 2017 for submittal of a revised Corrective Action Report with the results of the SVOC sampling.

Please let me know if you have any questions.

Sincerely,
Diane
