Subject: Kirtland BFF GWTS- Notification of Shutdown

Hi John and Diane,

Due to construction activities tying in the second treatment train to the existing GWTS, a notification is required for the system being down 24 consecutive hours. For the next 7 days we will have non-routine GWTS operations due to final construction and testing, and are likely to have several additional 24-hour disruptions over the next 7 days.

Considering the non-routine nature of the expansion of the GWTS, we would like the notification cover the next 7-day period, although we do expect to be running the system sporadically.

If you have any questions, please contact myself or Kate Lynnes or Adria Bodour.

Thanks!
Scott
