Good Afternoon:

You were probably copied on this but I thought I would send it to make sure. The affidavit of publication for the Application for a Permit for Additional Groundwater Point of Diversion from the New Mexico Office of State Engineer for the proposed injection well KAFB-106IN2 is attached. This begins the public notice period which ends on 6DEC19.

KAFB4904

NOTICE is hereby given that on August 28, 2019 Kiriland Air Force Base, contact Scott Clark, Chief Environmental Restoration, AFCEC/CZO, Kiriland AFB, 2000 Wyoming Blvd. SE, Albuquerque, New Mexico, 87117-8270 filed Application No. RG-1579 for a Permit for Additional Groundwater Point of Diversion with the STATE ENGINEER in the Rio Grande Underground Water Basin in the State of New Mexico.

Bernalillo is the County affected by the diversion and in which the water has been or will be put to beneficial use. This notice is ordered to be published in The Albuquerque Journal.

The applicant proposes to add additional points of diversion RG-1579 POD 376 located at X= 1,547,415 feet, Y= 1,470,053 feet, NMSPCS, Central Zone, RAD 83, along with RG-1579 POD 377, RG-1579 POD 378, and RG-1579 POD 379 at locations to be determined, within the Underground Injection Area owned by Kiriland Air Force Base, to be supplemental to existing permitted well RG-1587 located at a point where X=1,544,731.12 feet and Y=1,470,756.23 feet, NMSPCS, Central Zone, RAD 198, on land owned by the Kiriland Air Force Base. All wells are to be drilled to a depth of approximately 905 feet with a casing diameter of 14.5 inches, for the continued partial diversion and consumptive use of up to 4,500 acre-feet per annum, for pollution control and recovery, specifically for the extraction of groundwater for remediation and for the return injection of up to 2,000 acre-feet per annum of treated groundwater diverted from permitted and proposed wells. RG-1579 POD 376 will be located on Kiriland AFB just southwest of Pennsylvania St. SE and Clarence Street, in NW¼ NW¼, Section 6 Township 9 North, Range 4 East, NMPM, Bernalillo County, New Mexico.

No new appropriation of water above the applicant's right to divert up to 4,500 acre-feet per annum under permit RG-1587 is requested by this Application, and the applicant seeks to continue to divert groundwater for remediation purposes. The four wells to be permitted under RG-1579 are proposed to serve as injection wells for treated groundwater associated with the remediation of the bulk fuel spill as part of Kiriland Air Force Base's Ground Water Treatment System, by injecting 1,472 acre-feet from wells RG-1578 through RG-1588. The extracted groundwater will be treated and discharged into either the Golf Course, Main Pond for irrigation of the Tijeras Arroyo Golf Course, into infiltration galleries located adjacent to the golf course, or into the proposed injection wells on land owned by Kiriland Air Force Base.

To view the application and supporting documentation contact the State Engineer District Office to arrange a date and time for an appointment located at 5550 San Antonio Drive NE, Albuquerque, NM 87109-4127.

Any person, firm or corporation or other entity having standing to file objections or protest shall do so in writing (objection must be legible, signed, and include the writer's complete name, phone number and mailing address). The objection to the approval of the application must be based on: (1) Impairment; if impairment, you must specifically identify your water rights; and/or (2) Public Welfare/Conservation of Water. If public welfare or conservation of water within the state of New Mexico, you must show how you will be substantially and specifically affected. The written protest must be filed, in triplicate, with the State Engineer, 5550 San Antonio Drive NE, Albuquerque, NM 87109-4127, by December 8, 2019. Facsimile (faxes) will be accepted as a valid protest if the hard copy is hand-delivered or mailed and postmarked within 24-hours of the facsimile. Mailing postmark will be used to validate the 24-hour period. Protests can be faxed to the Office of the State Engineer, (505) 383-4030. If no valid protest or objection is filed, the State Engineer will evaluate the application in accordance with the provisions of Chapter 72 NMSA, 1978.

Journal: October 4, 11, 18, 2019
