Dear Mr. Atkins

Pursuant to the provisions of the Defense Environmental Restoration Program, Kirtland Air Force Base (KAFB) has conducted preliminary assessments and site inspections of the Military Munitions Response Program (MMRP) sites within the boundary of the installation.

KAFB's restoration personnel have recently completed the Non-Time-Critical Removal Action (NTCRA) Work Plan for the MMRP sites AL120a Propellant Dispersal Site, AL120b McCormick Unexploded Ordnance (UXO), and TG100 Target Area Munitions Response Sites (MRSs). The Air Force is submitting this Uniform Federal Policy Quality Assurance Project Plan NTCRA WP for MMRP sites AL120a, AL120b, and TG100 for the Environmental Protection Agency's (EPA) records.

Please note, that the EPA and the Department of Defense (DOD) mutually agreed with the creation of the joint EPA-DOD guidance "Management Principles for Implementing Response Actions at Closed, Transferred and Transferring Ranges (2000)," that the Comprehensive Environmental Response, Compensation, and Liability Act is the preferred mechanism for performing investigation and cleanup of closed munitions sites. For that reason, EPA Region 6's Superfund Division -- not EPA Region 6's Resource Conservation and Recovery Act federal facilities staff should receive MMRP decision documents.

If you have any questions or concerns, please contact Ms. Suzanne Devergie at (505) 853-7213 or at suzanne.devergie@us.af.mil or Mr. Scott Clark at (505) 846-9017 or at scott.clark@us.af.mil.

Sincerely

RYAN S. NYE, Colonel, USAF
Commander
