Mr. Kevin Pierard
Hazardous Waste Bureau Chief
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe NM 87505-6303

Dear Mr. Pierard

The Air Force received the New Mexico Environment Department's letter dated July 1, 2020 granting an extension request for the *Final ST-070E – Oil Water Separator, ST-219 Groundwater Well Work Plan*, establishing a revised due date of October 19, 2020. A contract modification was initiated to obtain funding for the new wells and work plan, but due to the current circumstances related to COVID-19 and the corresponding backlog of contracting actions the Air Force will not be able to meet this deadline. Funds were awarded on September 28, 2020, and a work plan is being developed accordingly.

The Air Force is respectfully requesting a 90 day extension to the *ST-070E Groundwater Monitoring Well Installation Work Plan*, establishing a revised due date of January 17, 2021. This extension request will allow time to gather the relevant groundwater data to inform the siting for the new wells and to develop a work plan.

If you have any questions or concerns, please contact Mr. Scott Clark at (505) 846-9017 or via email at scott.clark@us.af.mil or Mr. Darren Knight at (661) 203-7714, or via email at john.knight.15@us.af.mil.

Sincerely

RYAN S. NYE, Colonel, USAF
Vice Commander
