Dear Mr. Shean

In accordance with the New Mexico Environment Department (NMED) letter – *Approval with Modifications Final WP-026 – Base Sewage Lagoons and Golf Course Pond (SWMU WP-026) Aquifer Test Work Plan, November 2021* (dated 21 February 2022), Kirtland Air Force Base (AFB) was directed by NMED to submit the Site WP026 Aquifer Test Report by 30 September 2022. Due to difficulties in scheduling drilling subcontractors, as well as conflicts related to base operations, the field work for this aquifer test is currently planned to begin the first week of November 2022. Due to these delays, Kirtland AFB respectfully requests a 150-day extension of the Aquifer Test Report submittal from 30 September 2022 to 27 February 2023.

If you have any questions or concerns, please contact Mr. Scott Clark at (505) 846-9017 or via email at [scott.clark@us.af.mil](mailto:scott.clark@us.af.mil), or Ms. Suzanne Devergie at (505) 853-7213 or via email at [suzanne.devergie@us.af.mil](mailto:suzanne.devergie@us.af.mil).
