CERTIFIED MAIL-RETURN RECEIPT REQUESTED

Ms. Rebecca Kay
Environmental Scientist & Specialist
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

SUBJECT: REQUEST FOR EXPEDITED TREATMENT, SITE TREATMENT PLAN (STP), LOS ALAMOS NATIONAL LABORATORY (LANL)

Dear Ms. Kay:

The purpose of this letter is to request from the New Mexico Environment Department (NMED) permission to ship for treatment items that will be proposed for addition to the LANL STP in the next Annual Revision (18.0) due March 31, 2008. An expedited treatment opportunity is available for waste items if they can be included with scheduled LANL shipments to Energy Solutions in Utah.

STP Section to be Added to Rev 18.0	MWIR Waste ID	Treatability Group	Volume to be Shipped (m ³)
3.2	LA-W924	Lead Wastes	0.4164
TOTAL			0.4164

As stated, the items will be proposed for addition to the STP during the next Annual Revision. LANL has taken advantage in the past of opportunities to expedite shipments of waste not yet added to the STP. Please contact me immediately if you do not want LANL to proceed with adding this item to the shipment.

I have attached the Certification Statement for these wastes as required by the STP, see Enclosure A. These documents were prepared in accordance with the requirements of Section XX, "Documents, Information, and Reporting Requirements," of the FFCO.
