CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Joel Dougherty  
Hazardous Waste Management Division  
U. S. Environmental Protection Agency  
Region 6  
1445 Ross Avenue, Suite 1200  
Dallas, Texas 75202-2733

Dear Mr. Dougherty:

This letter notifies you of the start-up of Los Alamos National Laboratory's Lead Decontamination Trailer operations. The Department of Energy's submittal of this notice letter is required to ensure compliance with Milestone Number LD 100 in the Federal Facility Compliance Agreement (FFCA), which was signed on March 15, 1994. The FFCA specified a due date for this milestone of 30 days after the effective date of the agreement (April 14, 1994); the notice letter is required within five business days of the milestone date. As you recall, operation of the Lead Decontamination Trailer began last year (see enclosed letter dated April 15, 1993) and is continuing.

If you have any questions, please call Jon Mack of my staff at (505) 665-5026.

Sincerely,

Joseph C. Vozella, Chief  
Environment, Safety and Health  
Branch
