Dear Mr. Dougherty:

This letter transmits the referenced Treatment Prioritization Plan (TPP) for low-level mixed waste at Los Alamos National Laboratory (LANL). The Department of Energy's (DOE) submittal of this TPP is required for compliance with milestone number HLL-200 contained in the March 15, 1994 Federal Facilities Compliance Agreement (FFCA). This FFCA addresses hazardous and radioactive mixed wastes pursuant to the Resource Conservation and Recovery Act. The FFCA specified a due date for this milestone of May 31, 1994.

Supporting documentation will be retained in DOE and LANL files to support the FFCA, and will be made available to the Environmental Protection Agency and the State of New Mexico upon request. Please contact Jon Mack of my staff at (505) 665-5026, or Paul Schumann, LANL, at (505) 667-7391 if you have any questions regarding this activity.

Sincerely,
