ERRORS AND OMISSIONS
LANL CPV Rev. 1.0, June 1996

All errors and omissions are noted in *bold italics*.

- 1) **P.4, Section 2.1.4.1** - We believe that the following language was inadvertently omitted from the sentence and should be reinserted:

"A modification to LANL's RCRA permit providing for the return of such wastes and/or residues to *LANL must be approved by NMED prior* to any such return of wastes and/or residues to LANL."

- 2) **P.20, Section 3.3** - We believe that NMED intended the compliance date in Activity E to be consistent with the activity date in Activity D, *i.e., that both activities should have the date 12/20/98, not 12/2/98 and 12/20/98.*

- 3) **P.21, Section 3.4.1** - We believe that for purposes of clarity that a sentence immediately preceding the first Activity/Compliance Date table on this page is appropriate. Suggested language is : *Lead shapes and forms processed using the decontamination trailer.*

(DOE and UC do wish to comment on what appear to be two additional Activities/Compliance Dates in each of the two tables on this page, possibly added by NMED for purposes of clarity, *i.e., Activities B and C*. We recognize that many discussions on this matter have occurred, but do not believe that these were specifically listed in the revision package submitted by DOE and UC. We do not, however, anticipate any difficulties in complying with these requirements, and accept these changes. It is our belief that if this language is not tied back to your understanding of the Respondents request for revision that this would normally require implementation of FFCO Section X.C.1, "NMED-required revision".)
