Dear Ms. Archuleta:

Subject: Federal Facility Compliance Order (FFCO), Site Treatment Plan (STP), Notice of Completion of Off-Site Waste Shipment

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of completion of required activities set forth in the FFCO, October 4, 1996 (as revised). The STP Compliance Plan Volume (CPV), Activity 3.1.5F (as revised June 1996), requires that, "*(W)ithin 45 days of receipt of waste at treatment facility,*" the Department of Energy (DOE) and the University of California (UC) "*(P)rovide documentation to NMED that waste was received at off-site facility.*" The Los Alamos National Laboratory was required to complete shipment of all wastes in Section 3.1.5 of the CPV by August 25, 2000.

A shipment of STP covered wastes in treatability group 4, listed in Section 3.1.5 of the CPV was completed on September 24, 1996. Wastes were sent to the Environcare facility near Clive, Utah. In addition, the shipment included STP covered wastes listed in treatability group 5 listed in Section 3.4.3 of the Background Volume, but not addressed in the CPV. Wastes shipped are listed in the table below.
