**RE: Permit Modification Request for Off-Site Waste Acceptance for Treatment Residuals, for Los Alamos National Laboratory, Permit No. (NMD0890010515-1)**

Dear Mr. Todd:

The Hazardous and Radioactive Materials Bureau (HRMB) of the New Mexico Environment Department (NMED) has completed a review of the Permit Modifications requested for the Los Alamos National Laboratory dated November 20, 1996 regarding off-site waste acceptance for treatment residuals. The addition of a sentence at Module II "General Facility Conditions," Section II.B.2, "Off-Site Wastes," and a list of specified off-site facilities in an added Table 2-2 of Module II are the identified requested changes to the permit.

The requested Permit Modification has been determined to be Class II. Under the provisions of the New Mexico Permit Fee Regulations a fee of \$10,000 has been set for this modification. NMED should receive payment within thirty (30) days of receipt of this letter; at which time NMED will proceed with Public Notice and a Final Determination.

Should you have any questions or comments concerning this modification or the fee assessed, please feel free to contact either myself or Ms. Teri Davis of my staff at (505) 827-1558.

Sincerely,

*Robert S. Dinwiddie*
