DEPUTY SECRETARY

May 16, 1997

Mr. Kenneth M. Hargis
Program Manager
Waste Management Program
P.O. Box 1663 MS J591
Los Alamos, New Mexico 87545

Dear Mr. Hargis:

Subject: Response to Hand Delivered Letter 3/31/97 Signed by H.L. "Jody" Plum regarding Request Revision No. 5 to Site Treatment Plan (STP), Compliance Plan Volume (CPV) Covered Waste Inventory, Los Alamos National Laboratory (LANL) Federal Facility Compliance Order (FFCO). October 4, 1995.

Thank you for your letter and request for revision to the existing CPV. The request will be evaluated as soon as possible by HRMB taking in to account current staff shortage. If there is a pressing need to proceed with the revision by a specified time frame, please notify me of that dateline and HRMB will attempt to accommodate it in attempts to help LANL expedite waste treatment activities.

In the interim please provide the language for the proposed revisions on the diskettes which have been provided to your staff containing the most current electronic version of the LANL CPV. Please identify your proposed changes with a redline version or other easily identifiable methodology. Identify proposed language deletions with the use of strikeout for easy identification.

If we need to meet on these issues, please contact me at your convenience at 505-827-1557 to arrange for such a meeting.

Sincerely,

Benito J. Garcia, Chief
Hazardous Radioactive Materials Bureau
