Comments: Bill - although <sup>by</sup> the content +  
tone of the letter it appears as if the  
waste has been sent, DOE is actually  
awaiting my written approval prior to  
shipping this waste. If questions - give  
me a call. Thanks - Janice

Dear Ms. Archuleta:

Subject: Notification of Off-site Waste Shipment for Treatability Study, Site Treatment Plan (STP), Los Alamos National Laboratory (LANL)

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of our intention to ship covered waste to Oak Ridge National Laboratory for a treatability study. This notification is consistent with our commitment expressed in an August 29, 1996 letter to NMED; it is not explicitly required by the terms of the October 4, 1995 Federal Facility Compliance Order (FFCO), issued to the Department of Energy (DOE) and the University of California (UC).

The shipment will consist of covered waste which will be proposed in the Annual Update for FY'98 for addition to the STP covered waste inventory in Section 3.2.1 of the CPV in the treatability group "Nonhalogenated Organic Liquids," MWIR waste ID LA-W908. The purpose of the treatability study is to demonstrate the effectiveness of Self-Assembled Mercaptans on Mesoporous Silica (SAMMS) powder. The shipment will consist of 1 liter (0.001 cubic meters) of used vacuum pump oil contaminated with heavy metals, benzene and low levels of radioactivity.

Enclosed is a Certification Statement prepared in accordance with the requirements of Section XX, "Documents, Information, and Reporting Requirements," of the FFCO. Also enclosed is a copy of LANL's correspondence with Oak Ridge National Laboratory concerning the acceptance of this waste for the treatability study.

Please contact me at (505) 665-5042 or Ken Hargis at (505) 667-2347 if you have any questions.

Sincerely,

H. L. "Jody" Plum  
Office of Environment

From: tap@cosmail5.ctd.ornl.gov (Paul Taylor)  
Subject: Re: Mercury Treatability Test

It is certainly a good enough contract for us. The mailing address is:

Chuck Eblen  
Oak Ridge National Lab  
Bldg 7001, Receiving  
Bethel Valley Road  
Oak Ridge, TN 37831

For Paul Taylor, Bldg 3592 (574-1965)

Please let me know when you ship the sample. My regular mailing address (nonradioactive only) is Bldg 3017 MS-6044, POB 2008 (or Bethel Valley Road) then the same as above.
