CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Red LANL FFCO/98

Ms. Janice Archuleta
 Hazardous and Radioactive Materials Bureau
 New Mexico Environment Department
 2044 Galisteo St., Building A
 P. O. Box 26110
 Santa Fe, NM 87505

Dear Ms. Archuleta:

Subject: Site Treatment Plan (STP), Compliance Plan Volume (CPV), Milestone Activity 3.2.1, Los Alamos National Laboratory (LANL), Federal Facility Compliance Order (FFCO), October 4, 1995.

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of the completion of STP CPV Milestone Activity 3.2.1. Milestone Activity 3.2.1 consists of submitting "treatment or off-site shipment schedules and options for NMED's approval" for items in the Treatability Group "Hydrothermal Processing" by November 30, 1998. For consistency purposes, this milestone activity was proposed for deletion in Revision 7.0.

The Department of Energy and the University of California will complete off-site shipment of wastes in Section 3.2.1 of the CPV in accordance with the date specified in the narrative of Section 3.2.1, "Off-site shipments must be completed by February 2002." A proposal was included in Revision 7.0 to insert a table at the end of this section, including activities and compliance dates. The compliance date to "Complete shipping of existing wastes to an off-site treatment facility or complete parallel option" was proposed to be February 1, 2002. No change to this schedule is being requested at this time.

Enclosed is a Certification Statement prepared in accordance with the requirements of Section XX, "Documents, Information, and Reporting Requirements," of the FFCO.

Please contact me at (505) 665-5042 or Ken Hargis at (505) 667-2347 if you have any questions.

Sincerely,

H. L. "Jody" Plum
 Office of Environment
