CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Benito Garcia, Chief
Hazardous and Radioactive Materials Bureau
New Mexico Environment Department
2044 Galisteo St., Building A
P. O. Box 26110
Santa Fe, NM 87505

Dear Mr. Garcia:

Subject: Notice of Completion of On-site Waste Shipment, Activity 3.2 (K) in the Site Treatment Plan (STP), Los Alamos National Laboratory (LANL)

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of completion of required activities set forth in the Federal Facility Compliance Order (FFCO). Section 2.6 in the Compliance Plan Volume (CPV) of the STP states that, "Respondent will pursue on-site or off-site recycling/re-use as a parallel preferred option." Activity 3.3 (K) in the Compliance Plan Volume requires that "Within 45 days of receipt of waste at treatment facility or within 45 days after completion of parallel option," the Department of Energy and the University of California "Provide documentation to NMED that waste was received at off-site facility or provide notification of parallel option." This notification is required by Section XX of the October 4, 1995 FFCO.

A shipment that included STP covered waste listed in Section 3.2 of the CPV in the treatability group "Explosives," MWIR Waste ID LA-W932, was made on January 20, 1999. The total waste shipped contained 1 gram. The waste was shipped on-site to DX Division at Technical Area (TA) 9 where it will be recycled/re-used.

Documentation that waste was received at DX Division, TA-9, is enclosed. Also included as Enclosure B is a Certification Statement. These documents were prepared in accordance with the requirements of Section XX, "Documents, Information, and Reporting Requirements," of the FFCO.

Please contact me at (505) 665-5042, or Beverly Martin at (505) 665-0714, if you have any questions.

Sincerely,

H. L. "Jody" Plum
