Red LANL FFCO/99

Dear Mr. Taylor:

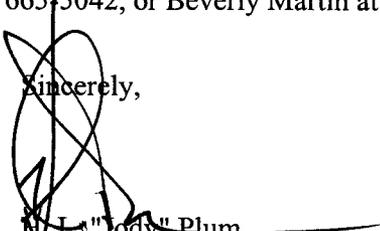

Subject: Correction to Notice of Completion of Off-site Waste Shipment, Activities 3.1.5 (B) and 3.3.1 (F) in the Site Treatment Plan (STP), Los Alamos National Laboratory (LANL)

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of a correction to a June 25, 1999 STP shipment notification letter. The correction is to the treatability group description in the table describing the total volume of STP waste shipped.

The narrative in the paragraph above the table in the June 25, 1999 letter is correct. The correct description for the Treatability Group for MWIR Waste ID LA-W930 is "*Lead for Surface Decontamination*," not "*Nonhalogenated Organic Liquids*," which was incorrectly written in the table. Please accept the table below as a replacement for the table in the June 25, 1999 letter.

STP Section	MWIR Waste ID	Treatability Group	Volume Shipped (m)
3.1.5	LA-W922	<i>Noncombustible Debris</i>	3.05
3.3.1	LA-W930	<i>Lead for Surface Decontamination</i>	0.56

Please accept our apology for this error in the table and for any confusion it may have caused. A Certification Statement prepared in accordance with the requirements of Section XX, "*Documents, Information and Reporting Requirements*," of the FFCO is included as Enclosure B. Also, please feel free to contact me at (505) 665-5042, or Beverly Martin at (505) 665-0714, if you have any questions.

Sincerely,
