Mr. James Bearzi, Chief
Hazardous and Radioactive Materials Bureau
New Mexico Environment Department
2044 Galisteo St., Building A
P. O. Box 26110
Santa Fe, NM 87505

Dear Mr. Bearzi:

Subject: Notice of Completion of Off-Site Waste Shipment, Activity 3.1.5 (B) in the Site Treatment Plan (STP), Los Alamos National Laboratory (LANL)

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of completion of required activities set forth in the Federal Facility Compliance Order (FFCO). Activity 3.1.5 (B) in the Compliance Plan Volume (CPV) requires that *"Within 45 days of receipt of waste at treatment facility or within 45 days after completion of parallel option,"* the Department of Energy and the University of California *"Provide documentation to NMED that waste was received at off-site facility or provide notification of parallel option."* This notification is required by Section XX of the October 4, 1995 FFCO.

A shipment that included STP covered waste listed in Section 3.1.5 of the CPV was made on August 31, 1999, and completed on September 2, 1999. Seven additional items in this shipment were proposed for addition to the LANL STP in Revision 9.0, which has gone out for public comment but has not yet been approved by NMED. Permission was granted by NMED, in an August 5, 1999 letter, to include these items in this shipment. Wastes were sent to the Envirocare facility in Clive, Utah. The total volume of STP waste shipped was 2.22 cubic meters. The STP waste shipped is described in the following table.

STP Section	MWIR Waste ID	Treatability Group	Volume Shipped (m ³)
3.1.5	LA-W922	<i>Noncombustible Debris</i>	1.003
Proposed 3.1.5	Proposed LA-W922	Proposed <i>Noncombustible Debris</i>	1.214
TOTAL			2.217

Documentation that waste was received at Envirocare is enclosed. Also included as Enclosure B is a Certification Statement. These documents were prepared in accordance with the requirements of Section XX, *"Documents, Information, and Reporting Requirements,"* of the FFCO.
