Dear Dr. Dinwiddie:

Subject: Notice of Completion, Federal Facility Compliance Order (FFCO), Site Treatment Plan (STP), Compliance Plan Volume (CPV), Los Alamos National Laboratory (LANL), Milestone Activity 3.1.3 (A).

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of the completion of Milestone Activity 3.1.3 (A) in the LANL FFCO, STP, CPV.

This milestone activity requires the completion of "shipment of existing wastes for treatment to an off-site facility or complete parallel option," for STP waste in Treatability Group, "Aqueous Organic Liquids," MWIR Waste IDs LA-W906-0, LA-W906-4, and LA-W906-5. UC has completed this milestone by the required compliance date of February 9, 2000. One shipment containing 0.33 cubic meters of this waste was made on December 17, 1999, to Diversified Scientific Services, Inc. (DSSI), in Kingston, Tennessee. A second shipment containing the remaining 0.2 cubic meters of this waste was initiated on January 25, 2000, to Waste Control Specialists (WCS) in Andrews, Texas.

Enclosed is a Certification Statement prepared in accordance with the requirements of Section XX, "Documents, Information, and Reporting Requirements," of the FFCO. We are available to discuss this information with you at any time. Please contact me at (505) 665-5042 or Beverly Martin at (505) 665-0714 if you have any questions.

Sincerely,

H. L. "Jody" Plum
