Re: Time extension for shipment of waste

Dear Ms. Martin:

The New Mexico Environment Department's Hazardous and Radioactive Materials Bureau has reviewed your correspondence regarding an extension request to meet a milestone which will be formally included in Revision 10 to the LANL FFCO. The NMED understands that this extension is due to availability of off site treatment caused by construction delays. Please notify this office when shipping for treatment can take place. It is suggested that LANL include this milestone change in Revision 10 to the LANL FFCO which is to be public noticed in August 2000.

If you have any questions concerning this extension approval for shipment you may call me at (505) 827-1561 ext 1039.

Sincerely,

Robert S. (Stu) Dinwiddie, Ph.D.
FFCO Project Manager
Hazardous and Radioactive Materials Bureau
