Activity 3.2(F) in the CPV requires that "(w)ithin 45 days of receipt of waste at treatment facility or within 45 days after completion of parallel option," the Department of Energy (DOE) and the University of California (UC), "(p)rovide documentation to NMED that waste was received at off-site facility or provide notification of parallel option." This notification is required by Section XX of the October 4, 1995 FFCO.

A shipment that included STP covered waste listed in Sections 3.2 and 3.3.3 of the CPV was initiated on December 12, 2000 and completed on December 14, 2000. Waste was sent to Envirocare located in Clive, Utah. The total volume of STP waste shipped to Envirocare is 2.34 cubic meters. The volume of STP waste shipped from each treatability group is described in the following table.
