SUBJECT: NOTICE OF COMPLETION OF OFF-SITE WASTE SHIPMENT, ACTIVITIES 3.1.2 (B) AND 3.1.5 (B) IN THE COMPLIANCE PLAN VOLUME (CPV), SITE TREATMENT PLAN (STP), LOS ALAMOS NATIONAL LABORATORY (LANL).

Dear Mr. Chacon,

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of the completion of required activities set forth in the Federal Facility Compliance Order (FFCO). Activities 3.1.2 (B) and 3.1.5 (B) in the CPV require that "(w)ithin 45 days of receipt of waste at treatment facility or within 45 days after completion of parallel option," the Department of Energy (DOE) and the University of California (UC), "(p)rovide documentation to NMED that waste was received at off-site facility or provide notification of parallel option." This notification is required by Section XX of the October 4, 1995 FFCO.

A shipment that included STP covered waste listed in Section 3.1.2 of the CPV was initiated on June 25, 2001 and completed on June 26, 2001. Waste was sent to Waste Control Specialists (WCS) located in Andrews County, Texas. The shipment also included two items of newly generated waste that became STP waste as a result of delaying the shipment. As discussed in our letters to NMED on April 26, 2001 and May 25, 2001, the shipment was delayed in order to include waste from Sandia National Laboratory. These two items will be proposed for formal addition to the STP in Section 3.1.5 in the next Annual Update and Revision, due to NMED in March 2002.

Proposed 3.1.5	Proposed LA-W922	<i>Non-combustible Debris</i>	0.21
