SUBJECT: PUBLIC NOTICE FOR SITE TREATMENT PLAN REVISION 13.0

Dear Ms. Gabaldon:

Revision 13.0 of the Los Alamos Site Treatment Plan (STP) was sent to the New Mexico Environment Department (NMED) on March 3, 2003. However, several corrections were needed for typographical errors and have been documented in correspondence to NMED. The last correction was submitted April 11, 2003, reference correspondence RRES/SA:2003-376.

Section X.C.3. of the Federal Facilities Compliance Order states: *NMED will publish a Notice of Availability in a newspaper of statewide circulation and at least one newspaper in and around Los Alamos, New Mexico, within thirty (30) days after a revision is required by NMED or proposed by the Respondents. NMED's written description of a required revision, or Respondent's written proposal for a revised revision, shall be made available to the public for review at appropriate locations.*

If NMED requires no further changes to Revision 13.0, we would like to request a Notice of Availability be published. Please send a copy for public review to:
