**SUBJECT: NOTICE OF TREATMENT FOR ACTIVITY 3.1.9 (A) IN THE COMPLIANCE PLAN VOLUME (CPV), SITE TREATMENT PLAN (STP), LOS ALAMOS NATIONAL LABORATORY (LANL)**

Dear Ms. Gabaldon:

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of the completion of required activities set forth in the Federal Facility Compliance Order (FFCO). Activity 3.1.9(B) in the CPV requires that "(w)ithin 45 days of receipt of waste at treatment facility or within 45 days after completion of parallel option" the Department of Energy (DOE) and the University of California(UC), "(p)rovide documentation to NMED that waste was received at off-site facility or provide notification of parallel option."

Gas cylinders included in treatability group LA-W918, "compressed gases requiring oxidation," were found to be empty of contents at TA-54 Area L. The cylinders have had their valves removed and are in the process of being prepared for landfill at Area G for disposal as low-level waste. Therefore, in Rev 14.0 of the Site Treatment Plan, LANL will list these items as treated.

STP Section	MWIR Waste ID	Treatability Group	Manifest Number	Volume Shipped (m <sup>3</sup> )
3.1.9	LA-W918	compressed gases requiring oxidation	N/A - on-site treatment	0.04
<b>Total STP Volume Shipped</b>				<b>0.04</b>

2131

Ms. Sandra Gabaldón
