**SUBJECT: SITE TREATMENT PLAN (STP) REQUEST FOR REMOVAL FROM INVENTORY, FEDERAL FACILITIES COMPLIANCE ORDER (FFCO) SECTION IX DELETION OF WASTE, LOS ALAMOS NATIONAL LABORATORY (LANL).**

Dear Ms. Winn:

The purpose of this letter is to request approval from the New Mexico Environment Department (NMED) concerning an item proposed for removal from the LANL STP in the next Annual Revision due March 31, 2004. The Federal Facility Compliance Order states in Section IX Deletion of Waste, Paragraph B, "Mixed waste may be deleted as a covered waste under this order when it is determined by NMED to no longer be subject to Land Disposal Restriction (LDR) requirements under the Hazardous Waste Act (HWA) or 20 NMAC 4.1."

During characterization of items for off-site shipment, a gas cylinder, in treatability group LA-W918 for *Compressed Gases Requiring Oxidation* due to its EPA Code D001 for ignitability as a compressed gas, was found to not have a valve on the cylinder itself. Therefore, the empty gas cylinder does not have an associated EPA code and is low-level waste. Photographs are included as Enclosure B. In the Annual Revision; these items will be noted as removed from the STP.

STP Section To be Removed in Rev 14.0	MWIR Waste ID	Treatability Group	Volume to be Removed from Inventory (m <sup>3</sup> )
3.1.9	LA-W918	<i>Compressed Gases Requiring Oxidation</i>	0.0425
<b>TOTAL</b>			<b>0.0425</b>

2198

Ms. Lee Winn

October 29, 2003

Included, as Enclosure A is a Certification Statement. These documents were prepared in accordance with the requirements of Section XX, "*Documents, Information, and Reporting Requirements*," of the FFCO.

Please contact me (505) 667-6952 or [dwwilburn@lanl.gov](mailto:dwwilburn@lanl.gov) if you have any questions.

Sincerely,

Dianne Williams Wilburn  
STP Project Manager
