Dear Ms. Kay:

**SUBJECT: PROPOSED ADMINISTRATIVE ADJUSTMENTS FOR THE
 FY07 SITE TREATMENT PLAN (STP), REVISION 18**

The purpose of this letter is to notify the New Mexico Environment Department (NMED) of proposed administrative adjustments to be included for FY07 Site Treatment Plan STP Update, Revision 18. Administrative adjustments and corrections are due to discrepancies found during quality control activities related to preparing waste for treatment, inventory, and disposal or when preparing for the STP Annual Update. These adjustments may result in additions of newly identified covered waste, transfers of waste to other treatability groups, or transfers of waste to the missing/nonexistent/TBV category of the STP. A thorough data quality review is conducted annually to compare shipment notifications with shipping manifests against database updates.

The proposed administrative adjustments are described in the following table:

MWIR Waste ID	Treatability Group	Volume (m ³)	Comments	CPV Section
LA-W918	Compressed Gases Requiring Oxidation	-0.0004	Volume Correction	3.1.9
LA-W925	Mercury Wastes – TBD	-0.3398	Volume Correction	3.2
LA-W934	High Activity Waste	0.4164	Transfer from mixed TRU inventory	3.2
LA-W935	10 – 100 nCi/g Waste	85.5702	Transfer from mixed TRU inventory	3.3.4
<i>Net Total</i>		85.6464
